## Public Library Internet Filtering Compliance Forms Due

RSMo 182.825 and 182.827 require public libraries with public access computers to either filter or have library policies in place to help protect minors from materials that is considered pornographic for minors. The statute also requires the State Library to annually verify the library's compliance with the statutes. If you have not already done so this calendar year, please fill out and submit your certification form to the State Library **as soon as possible**. The form can be found on the [SOS web site](#).

Please note:

- If your library uses MOREnet's filtering tool, it is called "Netsweeper" and was implemented in 2009.
- If you provide another tool for filtering content for minors, list the name of your filtering software or appliance **and** installation date.
- If your library chooses to use a policy to comply with this statute, a copy of the policy must be attached to your certification form.
